

1. Type www.conquermaths.com/login into your browser
2. Click  Login under Student Area
3. Enter your Username and Password and click 
4. Choose your Year / Stream / Topic and then a lesson from the list:

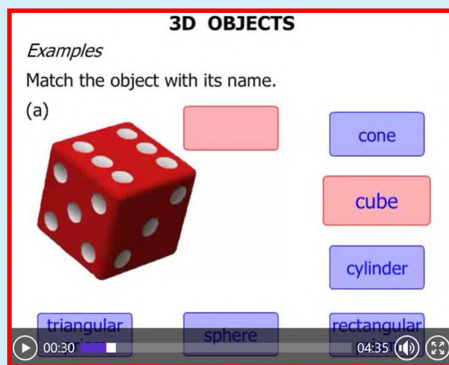

Reception	Number, Patterns and Algebra	Angles and Lines		Lessons
Year 1	Measurement	Plane Shapes		1. 3D Objects
Year 2	Space and Geometry	Position		2. Nets of Prisms
Year 3	Statistics and Probability	Solids		3. Nets of Pyramids
Year 4				

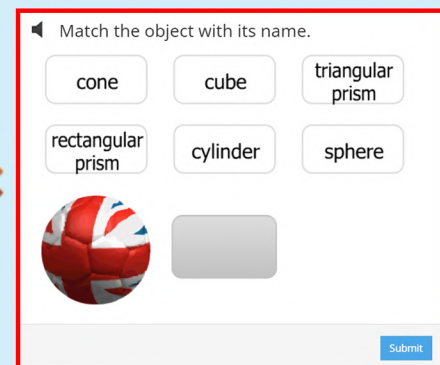

5.

Watch the video Tutorial. You can Stop the teacher and replay bits as often as you want.

Try the Questions. Answers are marked right:  or wrong:  straight away. You can also click the  symbol to hear a question read out.

6. Check your level at any time with the Diagnostic tests above the lesson list.

Diagnostic Tests

Short

20 questions

Standard

30 questions

Comprehensive

40 questions

7. Don't forget to check the Tasks tab to see if your teacher or parent has set you any work...

...and the Results tab is great for keeping a check on your progress.
